In 1969, something miraculous happened on the Happy Islands. The country's most modern spa, Spahotel Casino, was built to pamper the body and mind. But you can't be happy without treats, so a restaurant was also established in connection with the spa. Since then, our chefs have been respecting tradition and creating tasty dishes with fresh, high-quality ingredients. In the same year, other miracles happened, too...

In 1969

...man landed on the moon aboard Apollo 11. Neil Armstrong and Buzz Aldrin took giant leaps for mankind.

...the first Saab 96 was built in Uusikaupunki and handed over to President Urho Kekkonen under the registration number EKA-96 ("FIRST-96").

...the legendary music festival Woodstock was held in the state of New York. It still lives on in the minds of lovers of music, peace, and the hippie movement.

...the Beatles animation film Yellow Submarine premiered in Finland.

...travellers took to the skies with speed: the Boeing 747 Jumbo Jet and Concorde grew wings.

...many of the most important things in the world were born, including the internet! The first computer network was created by engineering students at the University of California.

Another story tells director Alfred Hitchcock invented the beloved drink in San Francisco in the 1940s. While we cannot confirm Hitchcock had anything to do with making mimosa magic, he did help to popularize this mixture of orange juice & champagne and made it the staple brunch drink that it is today.
